**Archetype** - The pattern creates a complex system of corridors, which bear resemblance to a labyrinth, which is an archetype well-known all around the world for centuries. Its meaning is as much complicated as the pattern itself. Typical association with the pre-existing maze-like buildings, which frequently were an element of a defence system, has established them as a symbol of security. Mark of a labyrinth has often found its place on the houses of ancient Greece.

**Mougins** - A pattern that consists of twenty two elements, which give the wall an effect of the earth cracked because of intense sun. It will be a marvelous addition to African accents that will give the entire space a taste of southern character.

# WELD

**WELD BRAND** | High quality products for decorative wall panels

**HQ**  
High  
quality

  
Unique  
formula

  
High  
performance

  
Easy  
of use

**PERFECT CHOICE** FOR PROFESSIONALS

## WELDFIX

Weldfix Ultra is modern and easy in use mounting adhesive, especially useful for decorative panels. It can be use to most of available substrates: lime plaster, gypsum plaster, wood, MDF, HDF cork plywood, chipboard, ceramics, plaster, plasterboard, steel, carpentry furniture, built-in cupboards, moldings, profiles, hangers, etc. Do not use styrofoam PE, PP.

## WELDMASA

WELDMASA is ready-to-use gypsum putty, suitable for a wide range of interior applications. It's perfect for non-structural filling, leveling, patching and jobs on gypsum boards such as decorative panels. Thanks to WELDMASA the surface is much more smoother. Advantages: high quality, unique formula, easy in use, fast drying time, increase smoothness.

## WELDPRIMER LIGHT & WELDPRIMER **STRONG**

WELDPRIMER LIGHT & WELDPRIMER STRONG Concentrate are the newest formulas that reinforce primed surfaces, reduce ground's absorbability, standardize primed surface. It is a preparatory coating put on materials before painting. Priming ensures better adhesion of paint to the surface, increases paint durability, and provides additional protection for the material being painted. We recommend to prime as the first layer under painting and install panels made of gypsum composite. Advantages: high quality, easy in use, fast drying time and high efficiency.
