CONSIGLI PER LA CONSERVAZIONE E LA MANUTENZIONE

I nostri frattoni in polycarbonato sono protetti da un film adesivo. È indispensabile rimuovere la pellicola protettiva. Per la pulizia è vietato l'uso di alcool o benzoli in quanto potrebbero causare l'insorgere di micro fessure interne. Si consiglia di pulire con un panno morbido o con una spugna bagnata. Nel caso di molto sporco si può aggiungere all'acqua calda del detersivo neutro non abrasivo.

TIPS FOR CONSERVATION AND MAINTENANCE Our polycarbonate trowels are protected by an adhesive film. It is essential to remove the protective film. For the cleaning it is forbidden to use alcohol or benzols as they could cause the occurrence of micro internal cracks. It is advisable to clean with a soft cloth or sponge wet with water. In case of very dirty surface, non-abrasive neutral detergent, can be added to hot water.
